

Dear Sirs,

PLEASE protect and keep New Jersey's 'Do Not Call' Law. I feel I have a right as an American Citizen to post at the end of my driveway "no soliciting" Or to put a fence around my house with a dog to deter excess of unknown people from coming up to my door. Please don't I have a right "NOW THAT IT IS A LAW" to keep unwanted: badgerers, solicitors, salesmen away from instantly being in my home when I pick up a ringing phone. They can pay the postage and send me information in the mail that I can look at at my leisure if they are so intent on selling to me. But please protect the law that gives me the choice to accept these annoying calls from getting through to me; or the choice to have a bit of privacy. PLEASE!!!

Sincerely

Maralee Chris
